

Cookies

As with many other websites in the world, EVIS uses cookies. A cookie is a small file on your device with a string of letters and numbers which serves as a unique identifier. Sometimes cookies can also be used to store your personal preferences on websites. When you open EVIS for the first time, cookies are created on your device. When you open it next time, cookies are sent back to us, thus letting us know you've already been there. We don't create cookies ourselves, but we use third-party providers who do it for us.

Cookies make it easier for you to use EVIS during future visits. They also allow us to monitor traffic and personalise the content of EVIS for you. *Session-based cookies* only last while your browser is open, and are automatically deleted when you close the browser. *Persistent cookies* last until you or your browser deletes them or until they expire.

Some of our cookies may be necessary for certain uses of EVIS. These cookies allow us to make EVIS usable by enabling basic functions like page navigation. EVIS may not function properly without these cookies.

We may also use functional cookies and cookies from third parties for analysis and marketing purposes. *Functional cookies* enable certain parts of EVIS to work properly and your user preferences to remain known. *Analytics cookies*, among other things, collect information on how visitors use EVIS, the content and products that users view most frequently, and the effectiveness of our third-party advertising.

We generally use cookies for the following purposes:

- a. authentication – we use cookies to identify you when you visit EVIS and as you navigate through EVIS;
- b. status – we use cookies to help us to determine if you are logged into EVIS;
- c. security – we use cookies as an element of the security measures used to protect user accounts, including preventing fraudulent use of login credentials, and to protect EVIS and our Services;
- d. analysis – we use cookies to help us to analyse the use and performance of EVIS and Services; and
- e. cookie consent – we use cookies to store your preferences in relation to the use of cookies more generally.

We use analytics packages from trusted third parties to constantly improve your experience of using EVIS and our services. Our trusted partners help us serve advertising and/or analytics and may place cookies on your device. You can find their privacy policies in the list below. Please read their privacy policies to ensure that you are comfortable with the manner in which they use cookies.

While we do our best to keep this list updated, please note that third parties who place cookies on your device may change from time to time, and there may be a slight delay updating the list.

You can generally activate or later deactivate the use of cookies through a functionality built into your web browser or mobile device. To learn more about how to control cookie settings through your browser:
